

A decorative border of lush green leaves and vines frames the entire page. The leaves are heart-shaped with prominent veins, and the vines are thin and winding. The border is composed of several layers of these elements, creating a dense, natural-looking frame around the central text.

Montcalm Mayfair introduces Camellia's Tea House

Welcome to Into the Garden
Afternoon Tea where the
essence of the garden is
expressed through fragrance
and flavour.

In partnership with Camellia's
Tea House — artisans of
fine, hand-crafted teas — we
present a sensory Afternoon
Tea experience that honours
nature's quiet luxury and
awakens the soul.

Each aromatic tea on this menu
tells its own story. Leaves,
gathered from distant gardens
kissed by sunlight and morning
mist, are blended with delicate
petals and warming spices
to create bespoke brews of
depth, nuance, and character.

We invite you to rediscover
the ritual of tea with this
curated selection from
Camellia's Tea House — an
experience thoughtfully
crafted with care and artistry
at Montcalm Mayfair.
